415 4th Ave. South  
406-653-1480  
Fax: 406-653-1483

Reference: CC Docket No. 02-06

Our school asks you to accept the Universal Service Administrative Company's recommendation to deny funding requests at the 80% discount level and below for priority 2 service for funding year 2010.

It is our concern that this will jeopardize funding for Year 2011 for priority 2 services. If the rules are going to change they should not change in mid year. We are three and one half months from when 2011 funding will start. Through our technology plan we have budgeted already for 2011 and even though you dropped the requirement for a budget in the tech plan we still have to budget for our resources.

Thank you for your consideration of our concerns.
